making your day memorable

## Overall Group Photo

The overall group photo is taken after the pre game briefings and combines all golfers playing in the day posing for a group photo. This engages the group as one and is a great start to the day.

## Individual Group Photo

On course golfers are captured in a relaxed group pose. Moving around on course ensures all photos are different and there is a unique feel to each image.

## Action Shots

Action shots are captured on course in a variety of ways and generally as a sequence of images to convey a sense of movement. Some good swings, plenty of bad ones but everyone having fun!

## Photo Presentation

The photo presentation is played inside the clubhouse and ready in time for when the golfers come off the course. An added benefit is the ability to promote sponsors providing them with additional exposure on the day.

**Monday, November 23, 2009**

Thank you for your participation in the 2009 Southern Health Golf Challenge supporting MonashHeart held today at Huntingdale Golf Club.

The day was a great success with the weather being ideal for golf. Additionally the course was in immaculate condition and the food excellent.

Thanks must go in particular to our various sponsors for the day. Without their valued support this event would not have been possible.

We encourage you to take a look at the website to view all the photos from the day as well as competition results.

Thank you once again and we hope to see you again next year.
